Bankstown Orchid Society Inc disclaims all responsibility for any loss or damage which may be attributed to the use or misuse of any materials published in this bulletin.

President's Message

Neville's Auction took place last night at our May meeting and was well supported by our members. I thought it was a great night, there were plenty of bargains to be had, and I'm confident that those of you who were successful bidders are today very happy with your purchases.

What money you have left, you can bring along to spend at OOW (Orchids out West) which is open from May 21st to May 23rd at the Hawkesbury Racecourse in Clarendon (near Richmond – the entrance to the racecourse is right opposite the RAAF base). It will be open from 9am till 4pm on Friday and Saturday, and 9am to 3pm on Sunday.

Of course, please don't forget our next Day meeting on Saturday 29th May. It is being held at your request, and really needs your support.

Coming soon we have a couple of very interesting guest speakers. In July we will have Myra Chalmers from the Gardens Club of Australia, who will demonstrate floral artistry using orchids and other flowers, a session not to be missed, and then at our August meeting The NSW Judging Registrar Ian Chalmers will be showing us the 2010 Chelsea Flower Show in pictures.

Finally, as we approach the end of the financial year, I would like to ask you all to help us check our current membership records. It is very important for us to have accurate records of membership for things like insurance etc.

Toni, our bulletin editor and webmaster, is inserting a small tear off section at the end of this bulletin for you to complete, tear off, and bring with you to the next meeting please.

See you all soon
Veronica

Unreadable Labels

The writing on some plant labels is becoming very unreadable. Please make every effort to clearly write the name of your plant on your labels - replace if necessary.

Paph Alwine x Alma Gavaert

by Jim Brydie

Of slightly more complex breeding than Maudiae itself this is still what we would call an alba Maudiae type. As best I can determine, the cross has not yet been registered. P. Alwine is P. sukhakulii x Goultenianum whereas Goultenianum is callosum x curtisii. This latter cross is a very old one being first registered in 1894. The second parent Alma Gavaert is also an oldie (lawrenceanum x Maudiae), being first registered in 1911. These old crosses were probably the coloured varieties and the alba versions would almost certainly be remakes.

As you can see from the picture, the mottled leaves of the Maudiaes are very attractive. It is not a basis for identification, but the colours and mottling patterns for the various species are quite different when you see them side by side. Nice foliage and long lasting stately flowers make them pretty good value eh?

In recent times I have been growing mine in mixes with a lot of cocofibre and have been pleased with the results. They seem to appreciate the relatively neutral pH of the fibre and its moisture retentive properties. I have also changed over from squat pots to those with a deeper profile and I think that this really suits them as well.

Conditions of Entry

1. Initial class places are tentative until all results are collated and finalised the following day.
2. Entries are received upon the basis that the Society or its sponsors shall not be responsible for any loss, destruction nor damage to such exhibits and the exhibitor shall have no claim against the Society or Sponsors.
3. Entries are accepted on condition that they are disease free. The decision of the President or Show Marshal shall be final.
4. All competitive entries shall have been owned and in the possession of the exhibitor for the preceding six months.
5. All competitive entries should be correctly and clearly labelled with the name of the plant.
6. There shall be no restriction to the number of entries by an exhibitor in any class. Entries in joint names will be accepted.
7. The Show Marshal and Committee reserve the right to reject, remove or rearrange any exhibit without giving any reason for that action and to reclassify any plant if necessary, prior to judging.
8. All plants shall be booked in and in position ready for judging by 11am on Monday 19th July 2010.
9. Entries are eligible for judging in one class only, except where stated otherwise in the schedule.
10. If in the opinion of the Judges no exhibit in any class warrants a *prize, none may be given*. At the discretion of the Show Marshal additional classes may be created where warranted.
11. Plants for special prizes shall be selected from all exhibits in the show unless otherwise specified.
12. Judging shall be by a panel of Judges nominated by the O.S.N.S.W. Registrar and shall be in accordance with the standards and by-laws laid down by the O.S.N.S.W. Inc. **The Judges decision shall be final.**
13. No exhibit may be dismantled or removed prior to closing time of the show at **4pm on 24th July 2010.**
14. **'Novice'** shall mean: Any exhibitor until she/he has won the yearly point score in the monthly competition of this society, or becomes an open class competitor in any other society.
15. **'Seedling'** shall mean the complete plant grown from seed and flowered for the first time. Plants that have been grown on or divided prior to being exhibited on the show bench are not eligible to be shown as seedlings. For exhibition purposes seedlings shall retain their status of 'Seedling' throughout the flowering season in which they first flower. Mericlones are not eligible as seedlings.
16. **'Miniature species'** are defined as Orchids with flowers 15mm or under in size across the widest part of the flower, regardless of the number of flowers, and distance of < 200mm from 1st to last flower. All 'Miniature' species are to be judged in this class.
17. **'Miniature Cymbidium Hybrids'** are defined for the purpose of this schedule as Cymbidiums where the flowers are 55mm or less, to be measured horizontally across the visible limits of the flower without manipulation and are miniature in habit.
18. **'Laeliinae Alliance'** classes shall include all combinations and not only those hybrids with Cattleya in their parentage. E.g. Epidendrum, Sophronitis, Laelia, Hawkinsara, Cattleyatonia, Leptotes etc.
19. Staking shall be in accordance with the rules of O.S.N.S.W. i.e. flowers may be supported in the best possible manner for presentation. This supporting should be in such a manner so as not to be obtrusive and distract from the overall beauty and charm of the plant. With single flowered genera e.g. Paphiopedilum, Lycaste, etc., ties or support shall be no higher than immediately below the ovary. If it is necessary to tie above the bottom flower or top branch, the judges are permitted to penalise, or temporarily remove such tie for the purpose of judging.
20. The cover for plants under protection for humidity must be transparent.
21. Champion seedling is not to be considered for Grand Champion unless it has already won the Champion in its class.
22. Plants offered for sale at the show must be free of disease and pests, offered at a maximum rate of \$85 or less and sold or rejected for sale at the discretion of the President or the Presidents representative.
23. The commission charged by the Bankstown Orchid Society for the sale of members plants will be 15% from those members who provide a minimum of 2 hours supervision at the venue, or 20% from members who do not attend. The supervision required to avoid the extra commission will not include the day of set up or the day of dismantling. Please ensure that you sign on and off in the attendance book, and report to the Committee member 'in charge' at that time.

There were two snakes talking. The first one said "Sidney, are we the type of snakes who wrap ourselves around our prey and squeeze and crush until they're dead, or are we the type of snake who ambush our prey and bite them and they are poisoned?". The second snake says "Why do you ask?" The first one replies: " 'cause I just bit my lip!"
